

Directory of African Cultural Administration Training Centres Online

In cooperation with UNESCO and ENCATC (European Network of Cultural Administration Training Centres), OCPA has developed a regional directory of African training centres and institutions existing throughout the continent in the field of cultural policy, administration and management as well as cultural development.

The objective of the project is to collect the information existing in this field and make accessible on-line, free of charge.

The results of the inquiry, the data concerning some 70 African training institutions and programmes, are posted at the ENCATC/UNESCO Directory web page (<http://www.encatc.org/directory/>). The latter already contains information concerning Europe, Russia, the Caucasian countries and Central Asia, Latin America and the Caribbean.

The Directory is an interactive on-line database presenting updated information about existing training programmes on cultural development for professionals and students concerned.
